PROFILE

I just shifted my career path from the restaurant industry, where I have 15 years of experience in every role. I had an education before my life in the restaurant industry as a developer. Still, the industry has changed since then, so I'm enrolled in an online developer boot camp to get my skills back up to a reasonable level. I have a few more months before I'm finished with my diploma.

EMPLOYMENT HISTORY

❖ **Soue chef, Restaurang tennstopet** Aug 2016 — Nov 2022
Stockholm

Worked directly under the head chef and was responsible for the daily routines in the kitchen and developing new dishes for the menu.

In this role, you are constantly challenged to keep your station up to speed and the rest of the kitchen, maintain an excellent phase to get ready in time and ensure all products are ordered to the correct station.

❖ **Head chef, Falernum** Jun 2015 — Jul 2016
Copenhagen

I worked on developing the menu to follow the seasons and match the wine menu with the restaurant manager. I also was in charge of the staff in the kitchen and their schedule, vacation and reported time to the economics department of the restaurant.

EDUCATION

❖ **Tullängsskolan** Aug 2000 — May 2003
engineer Örebro

Graduated from my school with a degree in computer science as an engineer.

❖ **Swedish army** Jan 2004 — Apr 2005
Reconnaissance officer Karlsborg

Worked a lot with encryption and communication systems. Manly, we studied UNIX as a core OS.

❖ **Code Institute** Jul 2022 — Apr 2023
Full stack developer Dublin

An online boot camp to get you a diploma as a full-stack developer. Manly, we use HTML, CSS, JavaScript, Python SQL, Bootstrap, Django, Flask and React, among other frameworks.
